1. PURPOSE OF THIS FINAL DRAFT POLICY

The purpose of this Final Draft Policy is to comply with the determinations of section 4 of the Municipal Property Rates Act, (Act No 6 of 2004), and to in this context allow members of the local community a period of 30 days to make comments and representations on the draft policy.

2. PREAMBLE

The Municipal Property Rates Act, (Act No. 6 of 2004) hereafter referred to as the MPRA, requires municipalities to develop and adopt rates policies consistent with the Act on the levying of rates on ratable property in the municipality.

Municipalities need a reliable source of revenue to provide basic services and perform its functions. Income derived from property rates are the most important source of general revenue for the municipality.

Revenue from property rates is used to fund services that benefit the community as a whole as opposed to individual households. These include installing and maintaining streets, roads, sidewalks, lighting, and storm drainage facilities; and building and operating clinics, parks, recreational facilities and cemeteries. Revenue from property rates is also used to fund municipal administration, such as computer equipment and stationery, and costs of governance, such as council and community meetings, which facilitate community participation on issues of Integrated Development Plans (IDPs) and municipal budgets.

Municipal property rates are set, collected, and used locally. Revenue from property rates is spent within a municipality, where the citizens and voters have a voice in decisions on how the revenue is spent as part of the Integrated Development Plans (IDP's) and budget processes, which a municipality invites communities to input prior municipal council adoption of the budget.

The Constitution of the Republic of South Africa, (Act No 108 of 1996), entitles municipalities to impose rates on property in their areas, subject to regulation in terms of national legislation.

The Constitution enjoins local government to be developmental in nature, in addressing the service delivery priorities of our country and promoting the economic and financial viability of our municipalities and in general to meet its obligations in terms of section 152 of the Constitution of the Republic of South Africa, 1996.

Local Government requires access to a sufficient and buoyant source of revenue necessary to fulfill its developmental responsibilities.

Income derived from property rates is a critical source of revenue for municipalities to achieve their constitutional objectives, especially in areas that have been neglected in the past due to racially discriminatory, inadequate or inappropriate legislation and regulation.

It is essential that municipalities exercise their power to impose rates within a statutory framework that not only enhances certainty, uniformity and simplicity across the nation, but also takes into account historical imbalances and the rates burden on the poor.

The Constitution of the Republic of South Africa confers on Parliament the power to regulate the exercise by municipalities of their fiscal powers.

3. LEGISLATIVE FRAMEWORK

In terms of Section 229 of the Constitution of the Republic of South Africa, (Act No. 108 of 1996), a municipality may impose rates on property.

In terms of Section 4(1)(c) of the Municipal Systems Act, (Act No. 32 of 2000), a municipality has the right to finance the affairs of the municipality by imposing, *inter alia*, rates on property.

In terms of Section 2(1) of the MPRA, (Act no 6 of 2004), a municipality may levy a rate on property in its area of jurisdiction in accordance with the provisions of the said Act.

The Council of the Municipality will impose a rate in terms of the aforementioned legislation. Consequently, this rates policy has been developed within the parameters of the applicable legislation relating to property rates.

This Final Draft Property Rates Policy ('the Policy') only applies to the rating of property valued in accordance with the Act and the applicable regulations. In preparing its first General Valuation Roll in terms of the MPRA, Buffalo City Municipality applied the principle of *current use* in terms of its valuation process. The application of this principle therefore underpins the rates policy recommendations outlined in this draft policy document.

4. COMMUNITY PARTICIPATION

- 4.1 During September 2008 Buffalo City Municipality engaged all members of the local community in a month long series of information sharing and public education sessions pertaining to the introduction of the new valuation and rating system.
- 4.2 During October and November 2008 members of the local community were granted the opportunity to make formal submissions on the first draft rates policy and were further granted to opportunity to address senior staff representatives on specific policy issues by means of structured public hearings.
- 4.3 During January and February 2009 structured feedback sessions were held with all members of the local community and representatives of ratepayers who made formal submissions to the municipality.
- 4.4 In preparing this final draft rates policy cognizance were taken of all verbal and written submissions received by the municipality as a result of the community participation processes outlined above.
